Work Experience

.NET Developer | The Pensions Regulator, Brighton Oct 2021 – Present

Junior .NET Developer | The Pensions Regulator, Brighton Nov 2020 – Oct 2021

Working as part of a large, multidisciplinary team (20), following Kanban principles, to deliver a React Single Page Application, integrated with Sitecore, made with a custom component library. Developed RESTful APIs to integrate the SPA with existing systems. Gained experience and learnt the importance of making websites accessible to everyone.

Working as part of a small team, developed a .NET Core console application which was deployed to all employee computers with integration with SharePoint to assist the business migration from an existing DM system to SharePoint.

Helped train an Intern by having weekly 1:1s.

IT Development Intern | The Pensions Regulator, Brighton Aug 2019 – Nov 2020

Gained professional training in C# and .NET Core building a Console App, a MVC Web App and a RESTful API whilst practicing SOLID principals, dependency injection and Test-Driven-Development (TDD)

Wrote SQL queries to analyse document metadata in their DM System.

Developed a series of Single Page Applications using React to assist with user testing.

Work experience | JPMorgan & Chase, London Jun 2016
